

VISITOR'S ACKNOWLEDGEMENT OF RISKS

In consideration of the services of Eagle Outdoor Sports, their officers, agents, employees, and stockholders, and all other persons or entities associated with those businesses (hereinafter collectively referred to as "EOS") I agree as follows:

Although EOS has taken reasonable steps to provide me with appropriate equipment and skilled guides so I can enjoy an activity for which I may not be skilled, EOS has informed me this activity is not without risk. Certain risks are inherent in each activity and cannot be eliminated without destroying the unique character of the activity. These inherent risks are some of the same elements that contribute to the unique character of this activity and can be the cause of loss or damage to my equipment, or accidental injury, illness, or in extreme cases, permanent trauma or death. EOS does not want to frighten me or reduce my enthusiasm for this activity, but believes it is important for me to know in advance what to expect and to be informed of the inherent risks. The following describes some, but not all, of those risks.

There will be rapids or other obstacles to be experienced on the trip. Boaters can be jolted, bounced, and otherwise shaken about during rides through these rapids. It is possible you could be injured if you hit equipment, or other objects while upright or upside down. Equipment may break or malfunction causing loss of property or injury.

Boats may turn over in the rapids or participants may swim causing prolonged exposure to cold water leading to hypothermia, injury, or death. Injuries can be sustained after you are in the water such as from items floating in the river or debris in the river bed. Drowning is always a possibility whenever you are around water.

Accidents can occur getting in or out of the boat. You might injure yourself by falling against some object in or around the boat, or on the shore. Boating requires physical exertion and effort. You might trip over rocks, stumps or other debris on shore while trying to hold the boat or tie it to a suitable object on shore.

While floating in the river you may be entangled in submerged or floating objects. These objects will hold you under the water causing you to drown.

Accidents can occur during off-river travel. Trails are often steep, rocky, and slippery. Hikes involve crossing streams, where footing can be awkward and dangerous. Participants can slip or fall during a hike, resulting in injury. Poisonous or dangerous plants, insects, or animals can be found with harmful effects to some guests. Exposure to the natural elements can be uncomfortable or harmful. Heat-sunburn, dehydration, heat exhaustion, heat stroke, heat cramps, wind, rain, outdoor, using portable toilet facilities, eating meals out-of-doors, being in the open for the extended length of the trip can be uncomfortable or cause injury. Pulling the boats or putting them into the river requires work which may cause you injury or illness.

It is also possible that some participants would suffer mental anguish or trauma from the experience or their injuries.

This list is not an exclusive or exhaustive list of possible injuries, trauma or accidents that may occur while boating. Most of these injuries are rare and you are not likely to encounter them, however they have occurred and you need to know about them and other possible injuries not mentioned above. These injuries occur more often when the participants are using drugs or alcohol or not physically able to undertake the activity.

I am aware that rafting entails risks of injury or death to any participant. I understand the description of these inherent risks is not complete and that other unknown or unanticipated inherent risks may result in injury or death. I agree to assume and accept full responsibility for the inherent risks identified herein and those inherent risks not specifically identified. My participation in this activity is purely voluntary, no one is forcing me to participate, and I elect to participate in spite of and with full knowledge of the inherent risks.

I acknowledge that engaging in this activity may require a degree of skill and knowledge different than other activities and that I have responsibilities as a participant. I acknowledge that the staff of EOS has been available to more fully explain to me the nature and physical demands of this activity and the inherent risks, hazards, and dangers associated with this activity.

I certify that I am fully capable of participating in this activity. Therefore, I assume and accept full responsibility for myself, including all minor children in my care, custody, and control, for bodily injury, death or

loss of personal property and expenses as a result of those inherent risks and dangers identified herein and those inherent risks and dangers not specifically identified, and as a result of my negligence in participating in this activity.

I have carefully read, clearly understood and accepted the terms and conditions stated herein and acknowledge that this agreement shall be effective and binding upon myself, my heirs, assigns, personal representative and estate and for all members of my family, including minor children.
